About Us

Health and Quality Ltd. is a Nigeria based healthcare solutions company dedicated to supporting healthcare providers with dependable medical supplies, devices, and pharmaceutical products that meet recognised quality standards.

We work with hospitals, clinics, laboratories, and public health institutions to ensure consistent access to products and maintenance services that support accurate diagnosis, effective treatment, and safe patient care.

Our operations are built on carefully selected partnerships with reputable manufacturers and technology providers in Europe, the United States, and Asia. These partnerships allow us to supply clinically proven products while ensuring compliance with regulatory requirements and suitability for local healthcare environments. We place strong emphasis on quality assurance, ethical sourcing, and reliability of supply. Every product we deliver is evaluated for safety, performance, and relevance,

and our logistics processes are designed to ensure timely delivery and continuity of service. We understand the operational pressures faced by healthcare facilities and tailor our solutions to meet specific institutional needs.

Beyond supply, we work closely with our clients to provide guidance, product support, and long-term solutions that enhance operational efficiency and clinical outcomes. Our approach is practical, transparent, and customer-focused, ensuring that healthcare professionals can rely on us as a trusted partner.

At Health and Quality Ltd., we remain committed to strengthening healthcare delivery in Nigeria by connecting providers to quality-driven medical solutions, where healthcare meets quality.

Our Purpose & Positioning

Healthcare delivery depends on access to reliable tools, technologies, and medicines. Gaps in supply, inconsistent quality, or poorly supported equipment directly affect patient outcomes. H&Q Healthcare Limited was established to address these challenges by acting as a dependable link between healthcare providers and quality-driven medical solutions.

We position ourselves at the intersection of global medical innovation and local healthcare needs. By aligning international manufacturing standards with Nigerian regulatory requirements and on-ground realities, we help healthcare institutions operate with confidence, consistency, and efficiency.

Our work supports both public and private healthcare systems, ensuring that quality healthcare solutions are not limited by geography, scale, or infrastructure constraints.

Mission Statement

At H&Q Healthcare Limited, our mission is to strengthen healthcare delivery across Nigeria by improving access to essential medical supplies, devices, pharmaceuticals, and professional healthcare support services.

We are committed to ensuring that healthcare providers are equipped with dependable, high-quality products that meet recognised global and local standards for safety, performance, and clinical effectiveness.

We exist to simplify and stabilise the flow of critical healthcare resources within an often complex and demanding healthcare environment. By working closely with hospitals, clinics, laboratories, and public health institutions, we deliver solutions that support accurate diagnosis, effective treatment, and safe patient care. Our mission extends beyond distribution. We aim to be a reliable partner that understands the operational realities of healthcare facilities and responds with practical, transparent, and accountable solutions.

Through ethical sourcing, rigorous quality assurance, and carefully managed supply chains, we ensure that every product delivered contributes meaningfully to patient outcomes and institutional efficiency. We provide clear guidance, responsive support, and long-term value to our clients, enabling healthcare professionals to focus on what matters most, delivering quality care with confidence.

At the core of our mission

is a commitment to responsibility, trust, and service excellence. We believe that when healthcare providers can rely on consistent quality and dependable support, healthcare systems become stronger, safer, and more resilient. This is how we fulfil our purpose, where healthcare meets quality.

Vision Statement

Our vision is to position H&Q Healthcare Limited as a trusted and central link between Nigerian healthcare providers and the global medical technology ecosystem.

We aspire to build enduring collaborations that close critical gaps in access, quality standards, and modern healthcare solutions, ensuring that Nigerian healthcare institutions are not left behind in an increasingly technology-driven global healthcare landscape.

We envision a healthcare environment where hospitals and clinics across Nigeria have consistent access to clinically proven products, modern medical devices, and professional support that aligns with international best practices while remaining suited to local realities. By bridging global innovation with local application, we aim to contribute to a healthcare system that is efficient, ethical, and sustainable.

Our long-term vision is rooted in partnership, not just supply. We seek to work alongside global manufacturers, regulatory bodies, healthcare professionals, and institutions to raise standards, improve operational capacity, and support continuous improvement in healthcare delivery. Through this approach, we aim to help build a healthcare ecosystem that delivers safer care, better outcomes, and increased confidence among patients and professionals alike.

As we grow, we envision H&Q Healthcare Limited becoming a reference point for quality-driven healthcare solutions in Nigeria, recognised for integrity, reliability, and meaningful impact. By connecting people, technology, and purpose, we aim to play a lasting role in shaping the future of healthcare delivery across the country.

Core Values

Quality Assurance

We uphold strict standards in procurement, evaluation, and distribution to ensure every product aligns with recognised global and local benchmarks for safety, performance, and reliability. Quality is embedded in every stage of our operations.

Integrity

We operate with transparency, accountability, and strong professional ethics in all engagements. Our relationships with clients, partners, regulators, and communities are built on trust and compliance.

Global Partnership

We build and maintain strategic collaborations with reputable organisations across Europe, the United States, and Asia. These partnerships ensure consistent access to high-quality medical innovations.

Innovation & Technology Advancement

We actively pursue modern medical technologies and solutions that improve healthcare delivery and bridge the technology gap between Nigeria and global healthcare markets.

Reliability & Customer-Focused Delivery

We maintain dependable supply chains, responsive service models, and tailored solutions designed around the real needs of healthcare professionals and institutions.

Distinctive Values

Evidence-Led Standards

Our sourcing and operational decisions are grounded in clinical evidence and technical validation. We prioritise solutions that demonstrate measurable impact on patient care and operational performance.

Ethical Stewardship

We treat every product and partnership as a responsibility to the healthcare ecosystem. Compliance, fairness, and long-term trust take precedence over short-term commercial gain.

Technology Bridging

We specialise in introducing practical and scalable medical technologies from global manufacturers and aligning them with local healthcare environments.

Partnership Equity

We engage global partners through transparent and mutually beneficial relationships that strengthen local healthcare capacity rather than one-sided distribution models.

Precision Service Culture

We deliver with accuracy by matching products and services to the exact clinical, operational, and logistical needs of our clients, reducing waste, errors, and downtime.

Logistics & Supply Chain Reliability

Quality assurance is central to our operations. Every product and service is evaluated against recognised standards for safety, performance, and regulatory compliance. We maintain structured documentation, supplier verification processes, and internal controls to ensure traceability and accountability across our supply chain. Our compliance-driven approach protects both healthcare providers and patients.

Scope of Services Overview

H&Q Healthcare Limited offers a comprehensive range of healthcare solutions structured across five core service areas:

- Consumables
- Medical Equipments & Devices
- Pharmaceuticals
- Biomedical Services
- Professional Services

Each service category is designed to support safe clinical practice, efficient operations, and sustainable healthcare

Consumables

Our consumables portfolio supports daily clinical operations across hospitals, clinics, laboratories, and diagnostic centres. We supply high-quality, single-use and routine-use items essential for infection control, diagnostics, and patient care.

Our consumables are sourced from reputable manufacturers and evaluated for safety, consistency, and regulatory compliance. We prioritise products that meet recognised international standards while remaining cost-effective and suitable for local healthcare environments.

Consumables are delivered with an emphasis on continuity of supply, helping healthcare facilities maintain uninterrupted services and adhere to clinical protocols.

Medical Equipments & Devices

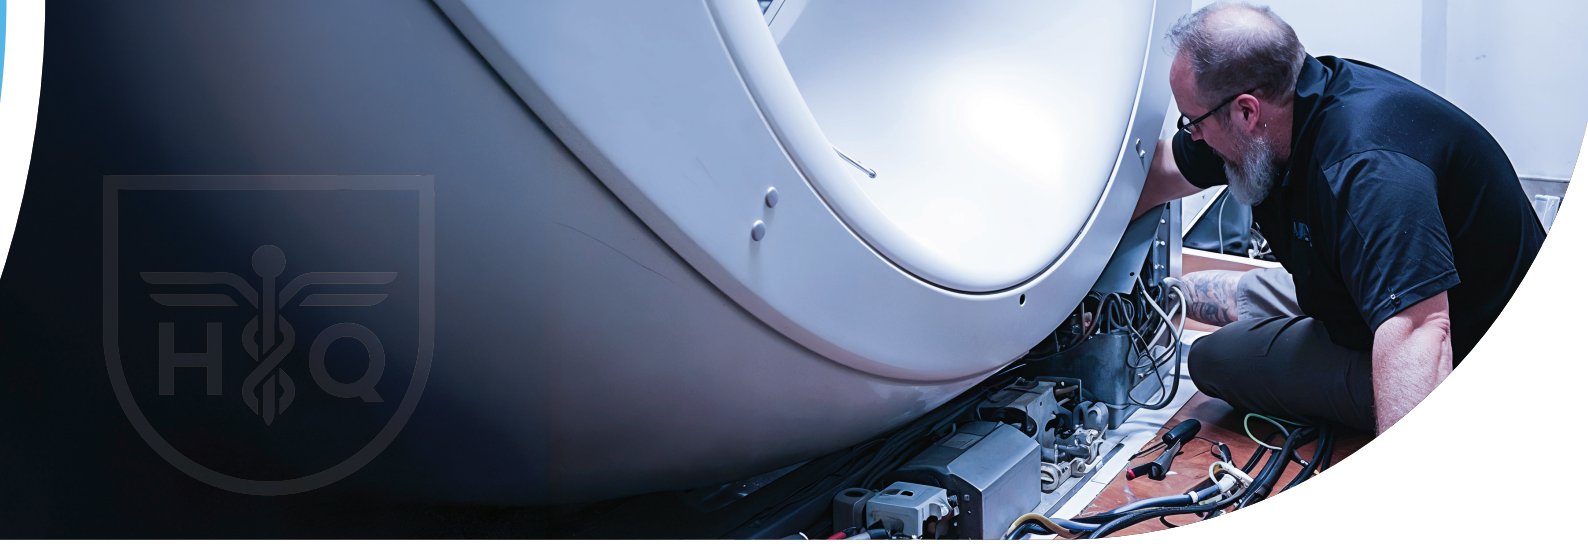

H&Q Healthcare Limited supplies a broad range of medical devices that support diagnosis, treatment, monitoring, and therapeutic interventions. Our device portfolio includes equipment designed for accuracy, durability, and ease of integration into existing clinical workflows.

We work closely with global technology providers to ensure that devices meet international quality standards and are supported by appropriate documentation, training, and after-sales support. Our approach ensures that healthcare providers not only receive reliable equipment but also gain the technical confidence required for effective and safe usage.

Pharmaceuticals

Our pharmaceutical supply services focus on providing essential medicines that meet recognised quality benchmarks and regulatory requirements. We support healthcare facilities with consistent access to trusted pharmaceutical products that contribute to effective treatment outcomes. We prioritise ethical sourcing, proper storage conditions, and transparent supply processes. Our pharmaceutical operations are designed to support patient safety, regulatory compliance, and institutional accountability.

Biomedical Services

Beyond product supply, H&Q Healthcare Limited provides biomedical services that support the performance, safety, and longevity of medical equipment.

Our biomedical services include equipment installation support, routine maintenance coordination, technical assessments, and service planning. These services help healthcare institutions reduce equipment downtime, improve asset utilisation, and maintain compliance with operational standards. By integrating biomedical support with supply services, we offer a more complete and sustainable healthcare solution.

Professional Services

Our professional services are designed to support healthcare institutions beyond procurement. We provide advisory support, product guidance, and operational insights that help clients make informed decisions.

We work collaboratively with healthcare professionals, administrators, and technical teams to align solutions with clinical objectives, budgetary considerations, and long-term operational goals.

Client-Centric Approach

At H&Q Healthcare Limited, our client-centric approach is built on a deep understanding that every healthcare institution operates within unique clinical, operational, and regulatory environments. We recognise that hospitals, clinics, laboratories, and public health facilities face varying challenges related to patient volume, infrastructure, budget constraints, and service scope. As a result, we do not offer one-size-fits-all solutions.

We engage closely with healthcare professionals, administrators, and technical teams to understand specific needs before recommending products or services. This consultative process allows us to align medical supplies, devices, pharmaceuticals, and support services with actual clinical workflows and operational priorities. Our goal is to ensure that each solution delivers practical value, supports patient safety, and enhances efficiency.

Responsiveness and reliability are central to our service culture. We prioritise clear communication, timely delivery, and consistent follow-through to reduce operational disruptions and maintain continuity of care. Beyond initial supply, we provide ongoing guidance and support to help clients maximise the performance and lifespan of supplied products and equipment.

By combining quality-driven solutions with personalised engagement, H&Q Healthcare Limited builds long-term partnerships based on trust, accountability, and shared commitment to improved healthcare outcomes.

Quality And Compliance

Quality and compliance form the foundation of all operations at H&Q Healthcare Limited. We recognise that in healthcare, the reliability of products, services, and processes directly affects patient safety, clinical outcomes, and institutional trust. For this reason, we apply strict quality control measures across procurement, evaluation, storage, distribution, and service delivery.

Every product supplied by H&Q Healthcare Limited is assessed against recognised international and local standards for safety, performance, and regulatory compliance. We work only with vetted manufacturers and partners whose products demonstrate proven clinical effectiveness and adherence to applicable regulations. Documentation, traceability, and product integrity are maintained throughout the supply chain to ensure accountability at every stage.

Our compliance framework aligns with Nigerian regulatory requirements and relevant global best practices. We maintain structured internal controls, transparent processes, and continuous oversight to minimise risk and support regulatory readiness for our clients. Quality assurance is not treated as a single checkpoint, but as an ongoing responsibility embedded into daily operations.

Through this disciplined approach, H&Q Healthcare Limited provides healthcare institutions with confidence that every solution delivered meets required standards, supports safe clinical practice, and contributes to sustainable, high-quality healthcare delivery.

A close-up photograph of a medical monitor and control panel, likely for a ventilator. The monitor displays a large orange number '89' and a smaller '90'. The control panel features several buttons and knobs, including 'Alarm', 'Trends', 'Invasive Drücke', 'EMG', 'NIBP', 'NIBP Hold Stop', 'Normal Anzeige', and 'PEEP'. The device is mounted on a blue surface, and a pair of surgical forceps is visible on the right. The background is a blurred clinical setting.

”

We are committed to addressing numerous medical challenges by ensuring that healthcare providers have reliable access to quality-assured medical supplies, devices, and pharmaceuticals that support safe clinical practice and effective patient outcomes.

Our Commitment to Nigerian Healthcare

At H&Q Healthcare Limited, our commitment to Nigerian healthcare is a foundational pledge to be a dedicated partner in the nation's health journey. We are devoted to strengthening the resilience, accessibility, and future-readiness of healthcare delivery for all Nigerians. Our mission extends beyond supply to meaningful partnership, supporting the continuous advancement of medical institutions across the country.

We focus on enabling healthcare providers through reliable access to world-class medical supplies, pharmaceuticals, and innovative technologies. By forging strategic global partnerships, we introduce advanced, clinically-proven solutions that align with Nigerian standards and are tailored for sustainable use within local healthcare settings.

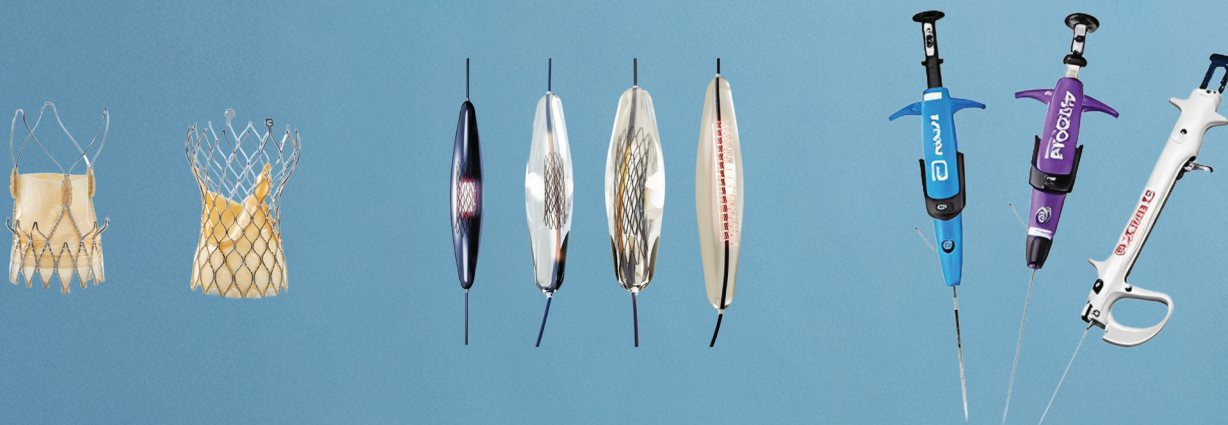

Collaboration is the cornerstone of our approach. We work hand-in-hand with hospitals, clinics, and public health institutions to understand their unique operational landscapes. This allows us to provide tailored solutions, technical support, and dependable service that enhance efficiency, reduce operational friction, and support the consistent delivery of quality care.

As a committed partner, we actively contribute to building long-term healthcare capacity in Nigeria. We facilitate knowledge exchange, support the integration of modern medical technologies, and champion quality-focused practices. Through these concerted efforts, H&Q Healthcare Limited strives to support a robust, responsive, and ever-evolving healthcare system that meets the needs of the nation with excellence and reliability.

Closing Statement

H&Q Healthcare Limited was established on the belief that quality is essential to effective healthcare delivery. In an environment where patient outcomes depend on the reliability of tools, technologies, and medicines, we have positioned ourselves as a partner that healthcare providers can trust to deliver consistency, accountability, and value.

Through strategic global partnerships, rigorous quality assurance, and a deep understanding of local healthcare realities, we connect healthcare institutions to dependable medical solutions that support safe diagnosis, effective treatment, and operational efficiency. Our work is guided by integrity, evidence-led decision-making, and a commitment to long-term impact rather than short-term transactions.

We measure our success not only by the products we supply, but by the confidence healthcare professionals place in us, the continuity of care we help sustain, and the outcomes achieved through the solutions we provide. As healthcare needs continue to evolve, we remain focused on adapting, improving, and delivering with precision and responsibility.

At H&Q Healthcare Limited, we are proud to contribute to the advancement of healthcare delivery in Nigeria. By aligning global quality with local needs, and service excellence with ethical practice, we remain committed to our purpose, building trust, strengthening healthcare systems, and ensuring that healthcare truly meets quality.

Future Outlook & Strategic Direction

H&Q Healthcare Limited is focused on long-term, sustainable growth that aligns with the evolving needs of Nigeria and the wider African healthcare landscape. In line with the African Union's Agenda 2063 and the Africa Health Strategy, which emphasize self-reliance, technology integration, and resilient health systems, our strategic direction is continentally informed and locally delivered.

We are committed to expanding our portfolio of quality-assured medical supplies, devices, and pharmaceuticals through deepened partnerships with reputable global and regional manufacturers. By fostering stronger Pan-African supply networks and engaging with initiatives such as the African Medicines Agency, we aim to introduce innovative, context-appropriate solutions that enhance diagnostic accuracy, treatment effectiveness, and health system efficiency across the region.

Our future growth prioritizes scalable and adaptive reach. We plan to extend our support to healthcare facilities across Sub-Saharan Africa, from major referral hospitals in urban centers to emerging clinics in rural communities—ensuring that quality medical products and solutions are accessible, equitable, and sustainable in diverse settings.

Technology and knowledge transfer remain central to our direction. We seek to support healthcare providers not only through product access, but also through capacity strengthening, technical training, and the promotion of regional best practices. By aligning global advancements with African realities, we contribute to a more integrated, capable, and sovereign healthcare landscape.

As we move forward, H&Q Healthcare Limited remains committed to responsible expansion, regulatory harmonization, and ethical partnership. Guided by the vision of a healthier, more resilient Africa, our strategic direction is firmly set on strengthening health delivery, building lasting continental partnerships, and supporting institutions that operate with confidence, consistency, and quality at every level.
